ADDED BENEFITS

• WHAT IS TELEDOC?

Teledoc offers 'On-Demand' access to healthcare, over the phone— any day of the week, any hour of the day! Short-term medications can be prescribed over the phone by a physician, so no waiting until the next day (or the next week) to receive medical attention!

Why does USDR offer this service to it's clients? The reduction in cost due to no consultations fees, outrageous charges or extra trips made to the doctor reduces the total cost! This leaves you with the extra funds necessary to be successful in saving during the settlement program.

• WHAT IS LIFELOCK?

LifeLock provides free fraud alerts requested to the major credit bureaus, which provides merchants to take extra precaution on your behalf to verify your identity. This service often times reduces the amount of junk mail, especially pre-approved credit card solicitations. The \$1 million total services guarantee is important to you, because if your identity is stolen while you're a client, the LifeLock program will do whatever it takes to recover your good name.

USDR offers this service to clients because we understand that it's not easy to leave your finances up to someone else... but you can trust in our experience, that the services will not only set you up for financial freedom, but protect your name in the long run.
